

Changes

Leslie Clio

Whatever changes, changes will come
I don't mind giving it all, give all I've got

I want us to be, I don't wanna do harm
I know I got a love for life
Won't let it go, just let it breath
Come rain, come shine, you set me free

We won't be broken far as we know
I'll always be here, won't let it go

Whatever changes, changes will come
I don't mind giving it all, give all I've got
Let's just forgive, I forgive and forget
Remember we'll be better now than we were back then
Never mind changes, changes, changes
Never mind changes, changes

I want us to be. I don't wanna know why
You always do light my fire
Whatever comes and whatever you do
You give me fever yeah, yeah I burn for you

We won't be broken far as we know
I'll always be here, won't let it go

Whatever changes, changes will come
I don't mind giving it all, give all I've got
Let's just forgive, I forgive and forget
Remember we'll be better now than we were back then
Never mind changes, changes, changes
Never mind changes, changes
Never mind changes, changes, changes
Never mind changes, changes

I will always be here, I will

We won't be broken far as we know
I'll always be here, won't let it go

Whatever changes, changes will come
I don't mind giving it all, give all I've got
Let's just forgive, I forgive and forget
Remember we'll be better now than we were back then
Never mind changes, changes, changes
Never mind changes, changes
Never mind changes, changes, changes
Never mind changes, changes
