

Falling To Pieces

Leslie Clio

Maybe someday we'll know places
We can run to when we fall
We were good, but we were lazy
Did our best to let it die

Funny that all this time
You've been trying to get away get away
Wonder what changed your mind
To give it all to her instead

Falling to pieces - why me?
Tripping over every little secret you keep
Watch me on the way down way down
I am falling I'm falling I'm falling
There should be more words for love

Through this concrete
Running over
Smile another sad girl smile
Promised too much to remember
But I try though - I try

Funny that all this time
I've been trying to make you stay make you stay
Wonder what changed your mind
To give it all to her instead

Falling to pieces - why me?
Tripping over every little lie I believe
Watch me on the way down way down
I am falling I'm falling I'm falling
There should be more words for love

How does it feel just to leave and resign?
Really find love cause I die - yeah I die
After all this time

I am falling I'm falling I'm falling
I am falling I'm falling I'm falling
There should be more words for love
