

God No More

Leslie Clio

Come straight over here
Give you all you could wish for here my dear
Whatever it'll be you got it all
She can't play no god no more

Come straight over here
Be sure to be in time for what is real
Don't make the same mistake you done before
She can't play no god no more

Better be in
Better be in time
She can't play no god no more

Figure me out
Use all that you're taking
All that I got
'Till everything is breaking
For there is no more
We're standing on the same side
All that I got
All that I got

Come straight over here
Give you all you could wish for here my dear
Tell her that you're gone and she's alone
She can't play no god no more

Better be in
Better be in time
She can't play no god no more

Figure me out
Use all that you're taking
All that I got
'Till everything is breaking
For there is more
We're standing on the same side
All that I got
All that I got

She can't play no god no more

Figure me out
Use all that you're taking
All that I got
'Till everything is breaking
For there is more
We're standing on the same side
All that I got
All that I got
