

Island

Leslie Clio

Someone's gotta come here and save me
Someone better be here in time
Should'n in the dark for too long now
If only i can past so far
Again i come
I do rerun
It's like i'm the only one
Again i come
I do rerun
It's like i, i've just begun

Refrain:

In my heart is like an Island
And i'm standing all alone
In my heart is like an island
And i'm standing all alone

2 Vers:

Someone's gotta come here and finde me
Someone's better make up their mind
Never meant to lose what i long for
Never meant to be so up....`?
Again i come
I do rerun
It's like i'm the only one
Again i come
I do rerun
It's like i, i've just begun

Refrain:

In my heart is like an Island
And i'm standing all alone
In my heart is like an island
And i'm standing all alone

In my heart is like an Island
And i'm standing all alone
In my heart is like an island
And i'm standing all alone
