Island

Someone's gotta come here and save me Someone better be here in time Should'n in the dark for too long now If only i can past so far Again i come I do rerun It's like i'm the only one Again i come I do rerun It's like i, i've just begun Refrain: In my heart is like an Island And i'm standing all alone In my heart is like an island And i'm standing all alone 2 Vers: Someone's gotta come here and finde me Someone's better make up their mind Never meant to lose what i long for Never meant to be so up....`? Again i come I do rerun It's like i'm the only one Again i come I do rerun It's like i, i've just begun Refrain: In my heart is like an Island

In my heart is like an Island And i'm standing all alone In my heart is like an island And i'm standing all alone

In my heart is like an Island And i'm standing all alone In my heart is like an island And i'm standing all alone **Leslie Clio**
