

Just have a little more faith
Honey believe me
I will light up the million lights
And the stars of your sky
So dry the tears in your eyes
Give you a reason to fight
What's going on in your mind
Just have a little more faith
Honey believe me

Let me be your remedy
Let me be your remedy
Let me be the light that shines upon
Leading you now
Leading you now

Don't be too hard on yourself
Must remember the meaning
Don't you turn your back on your heart
Don't let the sun go down
So dry the tears in your eyes
I'll be your reason to fight
Get off what's on your mind
Just have a little more faith
Honey believe me

Let me be the light that shines upon
Let me be the light that shines upon
Let me be the light that
Let me be the light that
Let me be the light that shines upon
Just have a little more faith
Honey believe me
