

Sister Sun Brother Moon

Leslie Clio

Walking
Same side
Wish I could hold on to what's on my mind

Walking
Hold tight
Wish I had known how to be on your side

If I'd known before

I'll be holding you so tight
Try to get it right this time
Never should have followed that dream, know what it's all about
I'll be loving you somehow
Start to give it to you now
Show you but a laugh and cry, baby I will ease your mind

Walking
Same side
Wish I had known from the start to be kind

Walking
Hold tight
Look for a way cause I'm willing to try

If I'd known before

I'll be holding you so tight
Try to get it right this time
Never should have followed that dream know what it's all about
I'll be loving you somehow
Start to give it to you now
Show you but a laugh and cry, baby I will ease your mind

Gonna love you soon sister sun brother moon
