

# Twist The Knife

Leslie Clio

All the things we didn't say  
Spinning round and round my mind  
Holding on to what we've lost  
And the things you left behind

There's no you and us  
But so much of me  
It's a futile desire  
And it's not how it's supposed to be

So if you want out  
It's alright  
Don't need a sad, slow decline  
Please be cool to be kind  
If you kill this love  
You really gotta twist the knife  
Twist the knife  
Twist the knife  
Twist the knife

I keep looking for you baby  
In every face I see  
I was meant to love you a long time  
Never wanted to be free

There's no you and us  
But so much of me  
It's a futile desire  
And it's not how it's supposed to be

So if you want out  
It's alright  
Don't need a sad, slow decline  
Please be cool to be kind  
If you kill this love  
You really gotta twist the knife

I don't wanna dream of you  
Where you like a sad tattoo  
Lay it down, lay it down  
Let it die

And if you want out  
It's alright  
Don't need a sad, slow decline  
Please be cool to be kind  
If you kill this love  
You really gotta twist the knife

So if you want out  
It's alright  
Don't need a sad, slow decline  
Please be cool to be kind  
If you kill this love  
You really gotta twist the knife

Twist the knife

Twist the knife  
Twist the knife

You really gotta twist the knife
