

## Mind Spinning

Lethal Bizzle

Guess I got caught up in the moment,  
Never meant for it to go this far,  
Now it feels like I'm falling in deeper,  
I'm thinking when she's gonna show me her cards,  
Guess I got caught up in the moment,  
Never meant for it to go this far,  
Like the Devil in disguise she was a creeper,  
She had me down on my knees praying hard,  
And I spend all of my time thinking about you,  
Nowhere to turn and I can see through,  
My mind keeps spinning, my mind keeps spinning,  
my mind keeps spinning, around, around, around, around

It's the thin line between love and hate,  
We started off as mates yeah everything was great,  
Talk on the phone for hours,  
She used to tell me all the guys she meets are cowards,  
She wants to settle down and plan baby showers ,  
Im like we(we we we) no rush,  
I know you had bad luck but don't paint us all with that same brush,  
You can't predict the timing I'm maybe not the guy your looking for but I ca  
n give you \*\*\*\* until you find him,  
She said I'm so cocky, I'm too cool for school,  
She said she wants a Superman to catch her when she falls,  
I said I could be him, but maybe not now,  
We just basically met, chill(chill chill) for a while,  
I guess love's blind, love's an illusion,  
Love causes pain, love cause confusion,  
Love can make you think the wrong move's the right solution,  
Let's prepare for the conclusion

Guess I got caught up in the moment,  
Never meant for it to go this far,  
Now it feels like I'm falling in deeper,

Nowhere to turn and I can see through,  
My mind keeps spinning, my mind keeps spinning,  
my mind keeps spinning, around, around, around, around

I can feel the table turning, no pretender,  
For this the last, more than one night wasn't the agenda,  
She got me gassed up, car crash, never saw it coming,  
How I got here fam I don't remember,  
Now she don't want that shoulder that I used to lend her,  
Now I'm callin her phone, now it's ringing out,  
It's kinda funny how the situations panning out,  
I'm addicted to the game, I'm used to the lime light,  
Addicted to the pain, I know that doesn't sound right  
Used to the brain, I take you on the king,  
Sometimes you gotta loose if you wanna win but,  
Love's blind, love is an illusion,  
Love causes pain, love cause confusion,

Love will make you think the wrong move's the right solution,  
Let's prepare for the conclusion
