Don't Cry

Lethal

[Verse 1:]
I know that you been goin through some things
Caught up in the rain girl I'm here to ease your pain
Times get hard I know just gotta take it slow
Who knows what the future may bring
[Hook:]
Your lookin so confused
You don't know what to do
Dont' wanna play the fool
Just let me talk to you
I'm here to stay forever
Your lookin so confused
You don't know what to do
Dont' wanna play the fool
Just let me talk to you
I'm here to stay forever
[Chorus:]
So don't cry
It's alright
Here when nobody is around
Girl you know ima hold you down
It's alright
It's OK
[Verse 2:]
I understand sometimes that ish dont go your way
The thing you've gotta know is that I am here to stay
I can make you happy (happy)
