

## Swim Or Drown

Lethal

Visionary warrior  
Erotic eyes search and deceive  
Evaluating plans  
To go your own way.  
Masters of the system  
Self-proclaimed Lothario  
In safe perimeters  
No conflict but no room to grow

Drowning on the land  
I tried to walk on water  
It always looked much different  
From the other side  
As I turned away  
I thought I heard you say  
Swim or drown my friend  
Swim or drown

Mercenary fever  
Dreams with suicidal themes  
I have to find my place  
I'll go my own way.  
Master of resistance  
Following the sirens call  
Dying to be born  
In the darkness of the morn.

There's no need pretending  
There's happy endings  
They always were so hard to believe.  
So take your last breath  
And swim until your death  
To the alter of disorder

Dissident disciple  
Seeking views close to the edge  
A human zoo display  
The chill of skin to fire  
The look of eyes that turn away  
The look of drowning man  
Not knowing they are bordering slaves.
