

## Beauty Queen Breast Stroke

letlive.

Face me

welcome ladies and gentleman, to the greatest of all,  
this was never to have been seen  
as performed by one yet enjoyed by all, so sit back,  
relax, enjoy and remember to  
wait immaturely to mature..

if I stay the rest will all pray

give fate an erection, make sure you're both just as hard,  
cause the blood is full in me on the boulevard of the stars,  
show hate some affection, make sure to slip love your card,  
cause drunk love is cool by me, as long as it's birthed by the  
bar

hold your head underwater, time to indulge, I'll serve you your  
drink,  
all I have to say is "I think you'll drink cosmopolitans"

hey look we're drowning, please take these limbs and teach them  
to swim  
hey look we're drowning, please take these limbs and teach them  
to swim

you're a product or their retirement, you're led by example now  
,  
your label reads "fuck me now"

hold your head underwater, time to indulge, I'll serve you your  
drink,  
all I have to say is "I think you'll drink cosmopolitans"

we will stomp on top of gardens, we will find our way,  
we will stomp on top of gardens, we will fight today, no way

hey look we're drowning, please take these limbs and teach them  
to swim  
hey look we're drowning, please take these limbs and teach them  
to fucking swim
