letlive.

(I know that) I have now seen the way
(Face this fact) manipulate till this day
(Disgrace this act) I have now find my own way
(I will rise) you will not bring me down
(Defeat demise) to somewhere beneath these grounds
(Reject these lies) simply because I have found

Now I have realized that this still the same
Now I will divide my heart in two
Since I have realized that this is still the same
No longer will I give my heart to you

(I know that) I have now seen the way
(Face this fact) manipulate till this day
(Disgrace this act) I have now found my own way
(I will rise) I hate you in every way
(Defeat demise) my love for you's still the same
(I pound and I pound) painfully force this change

I will not follow you into your hell
I will find solace in your hatred (I will confide in your hatred)
I will not follow you into your hell
I will find solace in your hatred (your hatred)
