

It's Been You

LeToya

When problems expect you the way I...
You tell me don't worry at all
You lift me up and I'm feeling down
And you're lways ethere when no body's around
You trust me crazy, to things that you
Could be my baby yeah, yeah
It's been you, you pick the...
It's been you drive in fron tof me
it's been you
it's been you
it's been you
How was you feel if I say I won't do
Tell me would yo feel the same way too
I don't wanna push you away
But the thought at you just makes my day
You trust me crazy, to things that you
Could be my baby yeah, yeah
It's been you, you pick the...
It's been you drive in fron tof me
it's been you
I don't come back no more at all
... I'll be ready to go
I don't mean to put preasure on you
Just want you to know that it's been you
It's been you, you've been here to...
It's been you try to find... in fron of my eyes
It's been you
It's been you
It's been you
It's been you, you've been here to...
It's been you try to find... in fron of my eyes
It's been you
It's been you
It's been you
