

# Lady Love

LeToya

Let's go...

Tell me what would you say if I told you I could pay for that  
Would you take the cash I gave you or would you just pass it back  
Would you be down to roll cause I'm always on the go  
My swag's incredible, can you keep up with me though

Come here baby, hop in my Mercedes  
Drive you crazy, not your average lady  
It's whatever, no one does it better  
Lock me down no less than forever

Oh boy, you know you want a girl like me  
That change your world type of girl, lady love  
And I know, you wanna love me til the sun goes down  
I'll be around, lady love  
I'll give you lady love, some of that lady love  
Come and get this lady love, just call me lady love

I'm such a lady  
(Just ask yourself) if you ever met a girl like me, yeah  
Now do you find it funny that I'm capable of making dough  
Wash your clothes, heat up the stove, same time making you oh!

Come here baby, hop in my Mercedes  
Drive you crazy, not your average lady  
It's whatever, no one does it better  
Lock me down no less than forever

Oh boy, you know you want a girl like me  
That change your world type of girl, lady love  
And I know, you wanna love me til the sun goes down  
I'll be around, lady love  
I'll give you lady love (would you like that)  
Some of that lady love (would you like that)  
Come and get this lady love (do you want that)  
Just call me lady love

Open your eyes, you'll see I'm all you need babe  
I'll take you higher, they ain't fly as me baby  
With you, desire comes natural to me babe  
Forever love ya, your lady lover  
Lady lover, yeah, no one, no... can love you  
Hey, gotta have it, ooh you can't resist my lady love

Oh boy, you know you want a girl like me  
That change your world type of girl, lady love  
And I know, you wanna love me til the sun goes down  
I'll be around, lady love  
I'll give you lady love (would you like that)  
Some of that lady love (would you like that)  
Come and get this lady love  
Just call me lady love...
