

# Lazy

LeToya

I Don't know it's not you it's the ones who hurt me and I just can't afford to be hurt again so...

Hold on

I'm not really trying to go through this again

I'm not jumping up and down about lovin

I don't want to dive back into that pool of love I'm done swimming (I'm good )

See I don't feel like getting to know you (no)

What you like to eat (no)

And what you like to do

See that's too much information to deal with

play the love game with another (cuz I quit)

Don't wanna start over again

Cuz I've had enough

I don't wanna hurt again

Sorry I give up

already know what I'm missin

Pain and heartach

I'm tired of it cuz my eyes are staying dry now Don't wanna let anouther in

Cuz im cool on that (cuz it might happen again)

Got on top of that (and it keeps repeating)

See that's insanity but I'm cured from this disease can you forgive me

you gotta forgive me

I know it might sound crazy

But right now my heart's a little lazy

I'm tired of hookin up

tired of careing

I don't feel like loving you (feel like loving you)

You gotta forgive me

I know it might sound crazy

But who knew love could be so training

tired of hookin up

tired of careing

I don't feel like loving you (feel like loving you no more)

Baby there's something that you gotta understand

It's not your fault but I changed my plans

And I've said that before

but now it's different (I really mean it)

Oh

See the problem is that I've (I've)

loved so hard and I've got to burn and im not

goin down that road again

Cuz I've found a different route

Don't wanna start over again

Cuz I've had enough

I don't wanna hurt again

Sorry I give up

already know what I'm missin

Pain and heartach

I'm tired of it cuz my eyes are staying dry now Don't wanna let anouther in

Cuz im cool on that (cuz it might happen again)

Cuz I've got no time for that (and it keeps repeating)

See that's insanity but I'm cured from this disease can you forgive me
