Don't Believe

You know it's sick. To think that you would know that I, I could save you, Cause I can't save, We got to get it right. Let's make sure this time that tonight, I could save you, Or I could break you. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. This is about to show, How much I love you, If you'll let me show, Cause I could save you, Or I could break. We got to get it right. Let's make sure that you know tonight, That I could save you, Or I could break you. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. Watch out! Huh Huh Huh Huh Huh! Play that song. Play it loud. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. Don't believe in me, don't believe in me, Cause I will let you down, Cause I will let you. Don't believe in me, don't believe in me, Cause I will let you down,

Letter Kills

Cause I will let you.
