

## Seven Months

### Letter Kills

it's been so long  
can i have a minute of your time  
this won't take long  
to let you know where i stand  
where i am

cause it's been seven long full months  
since i could hold your hands  
it's okay  
i understand

you say that i'm in love  
would that be too much?  
and you said these thoughts would fade away  
but knowing this  
waiting takes so long

besides time has helped me more than you know  
and i still seem to notice  
when you're here, when you're there  
for some reason i care

cause it's been seven long full months  
since i could ask you about your day  
and know that i'd be the first to hear you say

you say that i'm in love  
would that bring too much?  
you said these thoughts would fade away  
but knowing this  
waiting takes so long

you say that i'm in love  
would that bring too much?  
you said these thoughts would fade away  
but knowing this  
patience brings us change (??)

you say that i'm in love  
would that bring too much?  
you said these thoughts would fade away  
but knowing this  
patience brings us change
