

Seven Months

Letter Kills

it's been so long
can i have a minute of your time
this won't take long
to let you know where i stand
where i am

cause it's been seven long full months
since i could hold your hands
it's okay
i understand

you say that i'm in love
would that be too much?
and you said these thoughts would fade away
but knowing this
waiting takes so long

besides time has helped me more than you know
and i still seem to notice
when you're here, when you're there
for some reason i care

cause it's been seven long full months
since i could ask you about your day
and know that i'd be the first to hear you say

you say that i'm in love
would that bring too much?
you said these thoughts would fade away
but knowing this
waiting takes so long

you say that i'm in love
would that bring too much?
you said these thoughts would fade away
but knowing this
patience brings us change (??)

you say that i'm in love
would that bring too much?
you said these thoughts would fade away
but knowing this
patience brings us change
