

# Time Marches On

## Letter Kills

I never said you meant that much to me  
I cared a little but you wouldn't believe  
I never would pay what you want me to  
Well now I can.

I'll make this quick because I never got my fix  
and I miss you

When time marches on  
Take me now  
For all I am  
No matter what I've said  
time marches on  
Take me now  
For all I am  
No matter what I've said  
time marches on

I never meant to run when you came for me  
I just got scared because I didn't believe  
So catch me if you can, I'll be needing you to  
well now you can

So make this quick because I never got my fix  
And I miss you

When time marches on  
Take me now  
For all I am  
No matter what I've said  
time marches on  
Take me now  
For all I am  
No matter what I've said  
time marches on

And make this quick because I never got my fix  
And I miss you.

When time marches on  
Take me now  
For all I am  
No matter what I said  
Time marches on  
Take me now  
For all I am  
No matter what I've said  
Time marches on
