

# Awake

## Letters to Cleo

I guess it's been a while  
And a long time too  
Everything's still the same  
And so are you

It's only in this light  
That I could see what you'd be like  
If it took a million years well  
This is what I am

You're awake and I'm asleep and  
We are so complete that way  
You're asleep and I'm awake  
Everything is so great

Everything is so great  
Oh yeah  
Heavy

I wash my hands of you  
I wash my dirty feet too  
And when I wash my hair  
The dust clouds disappear

You're leaning out the window  
Beating down a path real slow  
With your heavy plastic bags and  
Heavy head

You're awake and I'm asleep and  
We are so complete that way  
You're asleep and I'm awake and

Everything is so great  
Everything is so great  
Yeah  
Oh yeah

I wish we had a laugh  
But you're just not funny  
Baby I'm leaving out the irony

You're awake and I'm asleep and  
We are so complete that way  
You're asleep and I'm awake and  
Everything is so great  
Everything is so great  
Yeah
