

I Got Time

Letters to Cleo

That's the greatest picture I have ever seen
So I stole it for myself
So you could see just what I mean
And this alluvial fan it represents my life

I've got the strength to move but why should I got time I got time
That's the greatest story I have heard so far
Lilies in the toilet spider
Driving motor cars

All the evidence would seem to point out that I'm just another
choke in your wheels
And that you got me trapped
I got time
I got time

You take the weight off the heavy notion
I'll take the wave from coast to ocean
That's why the ride is light
It's all alright it's alright

This alluvial fan it represents my life
I've got the strength to move
But why should I
You take the weight off the heavy notion

And I'll...
I got time
It's what I got
