

Dream crazy  
We change too fast  
Take cover  
Cos it can't last  
(it's a) cold crime  
A deadly sting  
There's no time  
To talk of deadly things

Well there's no lifetime guarantees  
But I see you and you see me  
Let's spend the night on love's deep sea  
And let emotion set us free

I love the way you start to glow  
I love the way your body flows

Stand easy  
It's a party crash  
So sleazy  
Let's make a smash  
Cool colors  
Set the scene  
Dive into  
The neon love machine

You know my love's a guarantee  
So dance a dance of love with me  
Your body's moving like the sea  
Now we're as close as we can be

I love the way you start to glow  
I love the way your body flows  
That's the way the party goes  
And it's a way everyone knows

Well there's no lifetime guarantees  
But when you're making love to me  
We'll ride the waves of ecstasy  
And let emotion set us free

I love the way you start to glow  
I love the way your body flows  
That's the way the party goes  
And it's a way everyone knows
