You gone and told me 'bout the Hollywood Hills The thrills and chills The passion and the pills Keep talking

You told me all about the men you met The come and get
The kiss that you regret
Keep talking

You went and told me 'bout the fame in Spain The plain in Jane The losing it again Keep talking

You told me all about the sweet sunset In love and debt The one you can't forget Keep talking

Now you keep talking in your sleep You've had it rough It went too deep I pray the lord your soul to keep I've heard enough I'm in retreat

(You) keep talking me right out of here Sleep talking

You went and told me bout the Italian job The Pope and God Spaghetti and the mob Keep talking

And how about the little brokedown shack The hack 'n smack The scratching Daddy's back Keep talking

You gone and told me bout the Broadway hits The diva fits The lovers and the splits Keep talking

You went and told me bout the Paris in the spring And the nearly thing
And the diamond in the ring
Keep talking

I don't know what I can say
Cos I can't take it away
I don't know what I can say to you
Cos you just took it away from me
Now you keep talking in your sleep
You've had it rough
It went too deep

I pray the lord your soul to keep
I've heard enough
I'm in retreat

(You) keep talking me right out of here Sleep talking

Fell apart in St. Tropez That kind of gave the game away Met the set in Martinique Couldn't hack the chic-to-chic New York new walk big town talk Your perfect face was white as chalk Trailer trash to all time smash Now you're waiting for the burn and crash Tragedy in harmony You gonna bling til you're back on your knees You gonna sing til you're back on your knees You gonna ring when you're back on your knees Tragedy in harmony You gonna bling til you're back on your knees You gonna sing til you're back on your knees You gonna ring when you're back on your knees Monte Carlo boom to bust Lost the lustre lost the trust Went to Phuket went to hell Had to get back into your shell LA tripped over your head Wanted to jump but you made it instead Trailer trash to all time smash Now you're waiting for the burn and crash

A tragedy
Yeah, yeah, yeah
Keep talking
Sleep talking
Keep talking
Keep talking
Keep talking
