

Three Words

Level 42

Baby

Every time you go
Feels just like another rainy day
baby does it show
that I count each hour when you're away

When I'm out to learn
to trust in your return
I want you to know what it is you do to me

All I need are three words from you
baby three words from you
There's no way life will ever be the same

Every time you go
You leave me in a room of emptyness
baby does it show
I'm waiting for the warmth of your caress

Every time you steal
Attention that was never meant for you
I've got to let you know what it is you do to me

All I need are three words from you
baby three words from you
There's no way I could ever live without you
I'll be here forever
Lost in your eyes
It's not us to reason why
There's no way life will ever be the same again

Perfection is the fantasy
The troubles are reality
baby (baby)
I need to know
but when I see the look that's in your eyes
my fears are gone I hope you realise
Baby (baby)
I need you so

Baby when I'm lost in your eyes
It's not us to reason why
There's no way life will ever be the same

All I need are three words from you
baby three words from you
There's no way I could ever live without you
I'll be here forever
Lost in your eyes
It's not us to reason why
There's no way I could ever live without you
I'll be here waiting for

Three words from you
baby three words from you
There's no way I could ever live without you

I'll be here forever
Lost in your eyes
It's not us to reason why
There's no way I could ever live without you
I'll be here waiting for You
