

Turn It On

Level 42

Reach into to another day
And the world is just one step away
Making money living blind
It's time to change - leave it all behind

Turn it on - whenever you can
Turn it on - you know that you can

Hear the echoes in your heart
tune your minds in then make a start
Anything you want to be
Will soon become reality
Then you'll see

Turn it on - whenever you can
Turn it on - you know that you can

You're out of touch - so turn it up
You don't need much - to burn it up

Take a different point of view
And discover just what you can do
Getting closer every day
Now the world is just a step away - (don't delay)

Turn it on - whenever you can
Turn it on - you know that you can

You hit the top - so turn it up
You'll never stop - just burn it up

Turn it on (turn it on) - whenever you can
Turn it on (groovin' on) - you know that you can

Turn it on (turn it on, yeah) - whenever you can
Turn it on (just movin' on) - you know that you can

Turn it on

Turn it on

Turn it on

Turn it on
