I was living in a daydream
Letting time a days my mind
I didn't know what I was missing
Till you came into my life

When I saw you pretty girl Felt as going inside When I kissed you pretty girl Felt you lighted up my mind

Boy I'm crying
I'm on the wings of love
And I know that
It comes from junior love

All in hands we walk together Nothing's gonna make us fast But our love wil lives forever If the sun that's in our heart

Making love is also sweet We're lost in each others eyes And I bought infinity That the one turnes to life

Boy I'm flying
I'm on the wings of love
And I know that
It comes from junior love

Now I'm living in a lovedream
Time and days are passing by
Now I really know what love is
I can't help smiling all the time

When you're with me pretty girl I feel your warmth by my side When you touch me pretty girl Brings that joy often high

Boy I'm flying
I'm on the wings of love
And I know that
It comes from junior love
And I know that
It comes from junior love
