## Don't Keep Me Waiting

I have nothing left to say There's nothing more that I can do Just staring into emptiness It's taking me away from you

If you must go If love is dying Please let me know Don't keep me waiting

You say you need some time You say you need to think things over Am I just being too blind to see, That I've lost you to someone else?

If you must go If love is dying Please let me know Just don't keep me waiting Don't keep me waiting Just break my heart But no more waiting No more pain Leverage
