

Heart of Darkness

Leverage

I have drifted along the rivers
Now I've found my destiny
Of my sins I can't be delivered
I have fouled, I have caused this grief

Dying light, September
Fading away on me
Cold wind of November
Running through me

R:
Heart of darkness
Invisible lines
Strangling the love of my life
Now I'm blinded
Can't run, cannot hide
Driven by demons of lust

Love is said to cure you
Love is surely known to kill
Flying high, the end is cruel
When it's time to pay the bill

Dying light, September
Running away from me
Freezing wind of November
Blowing inside of me

R2:
Heart of darkness
Invisible lines
Killing the love of my life
Now I'm blinded
Can't run, cannot hide
Driven by demons of lust
(2x)

Love me just one more time
I'll be gone eternally
Someday, in another life
My heart may find it's peace

Driven by demons of lust

Strangling the love of my life
(Heart of darkness)
Killing the love of my life
(Heart of darkness)
Driven by demons of lust
