

# King of the Night

Leverage

Boy selling papers  
Caught a glimpse behind the scenes  
Saw they had more  
Than he had ever dreamed

Their suits were tailormade  
Their boots were shining clean  
Careless tough faces  
Looking proud as can be

Started looking how they ruled the streets  
So they were livin' it up, livin' it up  
Beyond his dreams

refrain:  
King of the night  
Once and forever  
Pay your respect or you'll go down  
Now he's the king of the night  
Hell or high water  
I dare you, try to take my crown

Left his old man's business to  
Run them little services  
Wore his hat way tilted and  
Rolled up his sleeves

Fought, got arrested, jailed  
Took a bullet in their name  
Got himself a gang name  
Loved it all the way

His guts were tested on the streets  
And he never gave up, never gave up  
He was bound to be

refrain

Yeah, you'll go down

King of the night
