Boy selling papers Caught a glimpse behind the scenes Saw they had more Than he had ever dreamed

Their suits were tailormade Their boots were shining clean Careless tough faces Looking proud as can be

Started looking how they ruled the streets So they were livin' it up, livin' it up Beyond his dreams

refrain:

King of the night
Once and forever
Pay your respect or you'll go down
Now he's the king of the night
Hell or high water
I dare you, try to take my crown

Left his old man's business to Run them little services Wore his hat way tilted and Rolled up his sleeves

Fought, got arrested, jailed Took a bullet in their name Got himself a gang name Loved it all the way

His guts were tested on the streets And he never gave up, never gave up He was bound to be

refrain

Yeah, you'll go down

King of the night

refrain

King of the night (9x)
