

Waterfall

Leverage

1. I'm on fire
Like I've never felt before
Lose my senses, lose control
Strange desires
Twisting shadows on the wall
Voices whispering let go.

Ride of the lifetime
can't worry about a thing
May the devil laugh or the angels sing.

Tip the scales from fear to danger
Press the pedal through the floor
Ride the bullet through the storm
Save my soul.

Ref: Oh no
Outta way, I'm on the roll
Flying down the roaring stream
down the water.
Hold on or be taken down below
Flying down the roaring stream
down the waterfall.

2. I'm a stranger
reflection on the wall
Always wanting something more
I love the danger
I love playing with fire
On your marks, set go.

Ride of the lifetime
can't worry about a thing
May the devil laugh or the angels sing.

Feel the fever, feel the anger
Swing the hammer, crash the wall
Some heads are gonna roll
Save my soul.

Ref: Oh no, Outta way ...4x
