

# Run Forever

Leviathan

(Sharp/Skeen)

We seek for shelter in the deep of the night  
From the dark and the light, we close our eyes  
The longest days, the times that we make  
And the risks that we take underneath the starry skies

Run forever, we're unwanted you see  
Run forever, and we want to be free

Deceitful, danger run in the rain  
And deny all the pain 'cause you'll never fly  
There's no answer, there's nothing you made  
That can hide you're afraid both to live and to die

Run forever, we're unwanted you see  
Run forever, and we want to be free

Free from the truth and the lies, the feelings inside  
The walls that we've built from the pain in our minds  
No more will we take, for our will they won't break  
Hold on to your dreams for your life's what you make it,  
hold on

Run forever
