

# Violent Slaughter

Leviathan

You will die

Desecrated souls  
Unwilling death  
Helpless prey  
Satan laughs  
Demons of death  
Hell is their home  
They come out at night  
Screaming alone

Brought on this world  
Filled with hate  
You will die it's too late  
The chant of Gregorian  
The dead will arise  
Slaughtered in violence  
You're eaten alive

Killing  
Slaughtered  
Carnal  
Violence  
Deadly  
Killer  
Mystical  
Wonder

Killing for free  
Stopping the plea  
Leaving the dead  
Bloody red  
Killing for free  
Stopping the plea  
Leaving the dead

Lost in the powers of evil darkness  
Trusted each move that we've made  
Feeding on blood that brought us about  
And we must never forsake  
In the powers that moved us ahead  
Brought on our lust for evil  
Slaughtered in violence and lost with the dead  
Never to stop us again  
Clinging to that of which we have lost  
Trapped in the cryptic sites  
Feeding on blood that brought us about  
And we must kill at night

Blood flows deep  
Slaughtered by lust  
The final call  
To break the crust, up from the grave  
We'll take your life  
You will be lost, under the cross  
Into this world you can't kill us all  
There's too many

Now you must fall  
Zombies have take the world that you know  
Undead corpse devours you

Killing for free  
Stopping the plea  
Leaving the dead  
Bloody red  
Killing for free  
Stopping the plea  
Leaving the dead

Lost in the powers of evil darkness  
Trusted each move that we've made  
Feeding on blood that brought us about  
And we must never forsake  
In the powers that moved us ahead  
Brought on our lust for evil  
Slaughtered in violence and lost with the dead  
Never to stop us again  
Clinging to that of which we have lost  
Trapped in the cryptic sites  
Feeding on blood that brought us about  
And we must kill at night
