

# The Current

Levina

Where are you taking me?  
Hey, can I trust in this?  
I'm trying hard to close my eyes  
Where are you taking me?  
I'm not gonna fight you, not too much this time  
Hey, can I trust in this?  
I'm trying hard to close my eyes

I get so electrified,  
Carried by the current, carried by the current  
I get so electrified,  
Carried by the current, carried by the current

Hey, now that i trust in this  
I'm trying hard to close my eyes  
Yeah, it's enlightening  
Even though it's darker than before  
I, am I lost at sea?  
One of these waves is gonna bring me back to the shore

I get so electrified,  
Carried by the current, carried by the current  
I get so electrified,  
Carried by the current, carried by the current

Wherever I'm going,  
I don't need to know it,  
Nowhere is nowhere

I get so electrified,  
Carried by the current, carried by the current  
I get so electrified,  
Carried by the current, carried by the current  
I get so electrified...

One of these waves gonna bring me back  
One of these waves gonna bring me back  
One of these waves gonna bring me back  
One of these waves gonna bring me back to the shore

I get so electrified,  
Carried by the current, carried by the current  
I get so electrified,  
Carried by the current, carried by the current

Wherever I'm going,  
I don't need to know it,  
Nowhere is nowhere

I get so electrified,  
Carried by the current, carried by the current  
I get so electrified,  
Carried by the current, carried by the current

Wherever I'm going,  
I don't need to know it,  
Nowhere is nowhere

I get so electrified  
I get so electrified  
I get so electrified...
