

Little Darling

Lewis Watson

Summer girl in the winter time,
Your pretty eyes I pictured in the fading light
Little darling, little darling
You're mine

We walked for hours
Lost track of time
But I bought you flowers
So never let them die, no, no
Little darling, little darling
You're mine

Little darling,
Little darling,
You're mine

You're far away now,
But you're on my mind,
I'll never put a thing above you,
You're my guiding light
Little darling, little darling
You're mine

Little darling,
Little darling,
You're mine

You'll never have to worry
And I'll tell you why
I'll never find a girl quite like you
I hope you realize
You're mine

You're mine

Little darling,
Little darling
You're mine
