

Stay

Lewis Watson

When I close my eyes, I hear you singing
Singing me a song that I'll forget, I always forget
I try to trick myself back to sleeping
You pick me up but I let you down

It was so clear but now it's gone
I couldn't keep my eyelids shut
Why can't you stay, stay, stay?
If only I could dream, we could start again
If only I could dream, we could start again

When I close my eyes, I see you dancing
Dancing me a song just out of reach, just out of reach
I need you in a day when I'm not dreaming
You pick me up, I don't wanna let you down

It was so clear but now it's gone
I couldn't keep my eyelids shut
Why can't you stay, stay, stay?
If only I could dream, we could start again
If only I could dream, we could start again

It was so clear but now it's gone
I couldn't keep my eyelids shut
Why can't you stay, stay?
If only I could dream, we could start again, stay
If only I could dream, we could start again, stay
If only I could dream, we could start again
If only I could dream, we could start again
