## 1001 Nights

## Lhasa de Sela

I have no way to prove it No proof but I believe A thousand and one nights of this And then I will be free

My prison will be broken down
The dark will come undone
A thousand and one nights of this
And then the change will come

A garden growing underground A treasure waiting to be found A bird that never makes a sound

You don't have to believe it
But just you wait and see
A thousand and one nights of this
And then I will be free.
