

# The Lonely Spider

Lhasa de Sela

Lonely spider waiting in her web  
Hoping she can catch some happiness  
Then who should stumble into here but you

Got you where I want you  
Got you where I want you

Lovely lady spider likes you best  
Begs you to come live in her own nest  
Feeds you clothes you gives her heart to you

Got you where I want you  
Got you where I want you

Don't know why you put up such a fight  
Make the lady spider cry all night  
You never have to be alone again

Got you where I want you  
Got you where I want you

Lonely spider waiting in her web  
Hoping she can catch some happiness  
Oh, when will happiness come by again?
