

## Honest Face

Liam Finn

Don't want to make you feel like you made a mistake  
It's why I have to make you get away

There's a look in your eye and I don't feel safe  
You're a cheat and a liar with an honest face

The world outside is like a severed head  
The traffic light won't change its ways  
So we run and we hide but you don't feel safe  
Cause you stole and you lie with an honest face

I don't say these things just to anybody  
I don't say these things just to anybody  
I don't say these things just to anybody  
I don't say these things just to anybody

There's a look in your eye  
And I don't feel safe  
You're a cheat and a liar with an honest face

So we run and we hide but you don't feel safe  
Cause you stole and you lie with an honest face

I don't say these things just to anybody  
I don't say these things just to anybody  
I don't say these things just to anybody  
I don't say these things just to anybody
