

## Second Chance

Liam Finn

Sew the seeds  
Sew the seeds to life by packing up to make it right  
And all I need  
All I need to know  
Are you too proud to let it go?

Remember me  
Well honestly I don't remember who you are

So it seems  
And so it seems tonight, you've got that wild look in your eye  
What do you need  
What do you need to prove?  
The woman that you turn into

Remember me  
Well honestly I don't remember who you are  
The memory has never been the best, you want a second chance

You stand around your haunted home  
Those demons won't leave you alone  
Don't forget me when you grow old

Remember me  
Well honestly I don't remember who you are

Remember me  
Well honestly i don't remember who you are  
The memory has never been the best, you want a second chance

You stand around your haunted home  
Those demons won't leave you alone  
Don't forget me when you grow old

Remember remember
