

# This Place Is Killing Me

Liam Finn

Hey mirror dame in the window frame  
You've got problems of your own, but I love you just the same  
There is nothing for us here, yeah we can start over again  
And keep your promise to me

I came, I saw, what do you need me for?  
I suck and drain to numb the pain  
What do you need me for?

My broken heart in the rain  
And the pain of getting shot down like an aeroplane  
There's a devil in the trees, and don't let him in, please  
The sky was made of stone, and all my jokes were getting old  
And keep your promise to me

I came, I saw, what do you need me for?  
I suck and drain to numb the pain  
What do you need me for?

My broken heart in the rain  
And the pain of getting shot down like an aeroplane  
And keep your promise to me

I came, I saw, what do you need me for?  
I suck and drain to numb the pain  
What do you need me for?

Well oh well, I'm all alone  
Well, I don't know  
Where oh where, I'm all alone  
Well, I don't know  
Where oh where, I'm all alone  
Well, I don't know  
Where oh where, I'm all alone  
Well, I don't know
