

# Get Low

Liam Payne

Shake too low  
But that don't mean much  
Sensitive tough, you don't get enough  
I've been drowning in your, lost in the rush  
Faded you're stuck, I help you up

Don't care if you're too loud, sexy, I want you now  
Bet I could take you there  
Whisper it in your ear  
What do you wanna feel?  
Let's just enjoy the thrill  
I'll take a breath of will, and give you the touch you're missing

Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb  
Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb

Beautiful as you are, I wanna light up your dark  
Maybe you don't believe in me, it's hard to know what you see of me  
Don't be quick to say no  
My chest is your pillow  
Come out of the shadows  
I know that you're fragile

Don't care if you're too loud, sexy, I want you now  
Bet I could take you there  
Whisper it in your ear  
What do you wanna feel?  
Let's just enjoy the thrill  
I'll take a breath of will, and give you the touch you're missing

Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb  
Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb

I like the way you take me there  
I like the way you touch yourself  
Don't hold back, I want back  
When the water come down, I'ma get in that

Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb

I'm right here, you know, when your waves explode  
Let's skip the undertone

Know that you've been broken  
Know that you've been hoping  
Swimming in your ocean  
Your new life is floating  
The stars are made to shine  
Reach up and make a wish  
It's a beautiful time, I hope you take a glimpse  
With a sound of love is blowing crazy in the wind  
You don't have to pretend  
I don't care where you've been

Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb  
Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb

I like the way you take me there  
I like the way you touch yourself  
Don't hold back, I want back  
When the water come down, I'ma get in that

Get low, get low  
Hands on your waist, let's go  
Get low, get low  
Girl you got the vibe, I'm up for the climb  
Get low
