

# Slow

Liam Payne

Though this is done, I will turn a blind eye  
Don't tell me goodnight, cause' it means goodbye

Know, that we're broken  
Know, this was over months ago, months ago  
Got me pretendin' you ain't done with us  
It got me runnin' round the obvious  
Yeah, baby, why you gotta rush

If you gonna let me down, let me down slow  
Tell me what I already, already know  
I know that your minds of already made up  
But give me one more night now before we give up  
If you gonna let me down, let me down slow  
Just another minute, I ain't ready to go  
Before we let the light in, baby, just hold me like you don't know  
That you're gonna let me down, let me down slow

Let's leave it unsaid, just one more second  
If you don't say it, then it ain't true yet

Know, that we're broken  
Know, this was over months ago, months ago  
Got me pretendin' you ain't done with us  
It got me runnin' round the obvious  
Yeah, baby, why you gotta rush

If you gonna let me down, let me down slow  
Tell me what I already, already know  
I know that your minds of already made up  
But give me one more night now before we give up  
If you gonna let me down, let me down slow  
Just another minute, I ain't ready to go  
Before we let the light in, baby, just hold me like you don't know  
That you're gonna let me down, let me down slow

Let me down, let me down slow

So let me down, let me down slow  
Why you gotta rush, when I already know  
That your mind's already made up  
And I know you wanna give up  
So before you let me down, let me down slow  
Give it one more minute, 'cause I don't wanna go  
Before we let the light in, baby, just hold me like you don't know  
That you're gonna let me down, let me down, let me down, let me down  
slow

Let me down, let me down slow, yeaah  
Let me down, let me down slow
