

# They Could Be Wrong

Lianne La Havas

The way you look when you're sleeping  
The way you breathe when you're leaving  
I know you more than I'm not myself

Mmm... And when you're home feel your footsteps  
I count alone in the darkness  
In the darkness

They say our love won't last forever  
They could be wrong  
And when they say our love won't last forever  
They could be wrong  
They could be wrong

The way you smile when I'm speaking  
I feel how clearly you see me  
How clearly you see me

They say our love won't last forever  
They could be wrong  
And when they say our love won't last forever  
They could be wrong  
They could be wrong  
They could be wrong  
They could be wrong

(Ooooh)  
We could be wrong

Hear me out  
Just hear me out  
Oh hear me out  
Just hear me out  
Oh hear me out  
Just hear me out  
Oh hear me out  
Just hear me out  
(They say our love won't last forever)  
Hear me now  
Just hear me now  
Oh hear me now  
Don't push me out  
(They say our love won't last forever)  
Oh hear me now  
Don't push me out  
Oh hear me now  
They say our love...

Oh they could be wrong  
Yeah they could be wrong

We proved ourselves wrong

They say our love won't last forever  
They say our love won't last forever
