

Plaster Casts of Everything

Liars

I wanna run away
I wanna run away
I wanna run away
I wanna run away
I wanna bring you too
I wanna bring you too
I wanna bring you too
I wanna bring you too
I wanna run in the mud
I wanna run in the mud
I wanna run in the mud
I wanna run in the mud
Because there's something to run(?)
Because there's something to run(?)
Because there's something to run(?)
Because there's something to run(?)
See someone doubting us(?)
Underneath you standing there(?)
See my surprise of death(?)
I think you'll never love(?)
I wanna run away
I wanna bring you too
I wanna run away
I wanna bring you too
I wanna run away
I wanna bring you too
I wanna run away
I wanna bring you too
I wanna run in the mud
I wanna run in the mud
I wanna run in the mud
I wanna run in the mud
You give me nothing to lose
You give me nothing to lose
You give me nothing to lose
You give me nothing to lose
We saved our lives forever
We saved our lives together
You say
let's ride
this wave
for the rest to say
let's leave today
let's ride
this wave
for the rest to say
let's leave today
let's ride
this wave
for the rest to say
let's leave today
let's ride
this wave
for the rest to say
let's leave today
