

## The Garden Was Crowded and Outside

Liars

Well, I like, I like, I like, I like, I like, I like, I like, I like, I  
like, I like, I like, I like  
The hallway ceiling  
It's just four feet wide  
With a plastic mountain  
Or that looks like...

They cut me up, they cut me up, they cut me up, they cut me up,  
they cut me up  
At the medical school  
They cut me up, they cut me up, they cut me up, they cut me up,  
they cut me up  
At the medical school

I couldn't tell you that number  
Or what his face looked like  
He was a raving customer  
What he might like  
What he might like, like, like, like

They put me in, they put me in, they put me in, they put me in,  
they put me into  
the seamless mixer  
They put me in, they put me in, they put me in, they put me in,  
they put me into  
the seamless mixer
