

Secret

Libera

I wish the dawn may know nothing of the name that I told
the night

I wish like mist in the morning it drifts away silently
to hide away

So carry away to never see light of day
keep hidden away for eternity - a secret song

I dream the day could proclaim the love of the name that
I told the night

I dream that glorious daylight uncovers the mystery I
hide away

I pray to hide from the sunset the secret I told the day
I pray to carry away the love and drift away silently and
hide away
