

## Dream About It

Liberty X

I didn't wanna talk  
I didn't even know your name  
But the way that you moved your body  
I could tell that you were game  
As I moved a little closer to you  
You cast your spell on me

I didn't wanna stop  
Didn't wanna miss a beat  
Cos the passion inside of you  
Knocked me off my feet  
There was nothing I could do about it  
You had a hold over me  
It must have been plain to see

But don't go jumping to conclusions  
I ain't looking for romance  
I'm having the best time now  
But please understand

Don't even think that I  
Wanna run away with you  
Never assume that I  
Could ever feel the way you do  
Who said a thing about  
Love forever true  
Don't even dream about  
Dream about it

You led me to your ride  
Pulled the soft top down  
I could tell I'd got your motor running  
As we cruised through town  
As a warm breeze strokes your body  
I felt you touching me  
It wasn't just a fantasy

Don't ever dream that this could be  
More than just sexuality  
Just 'cos I'm knocking boots with you  
You ought to think yourself lucky  
To land yourself a squeeze like me  
So you just appreciate it  
Before you go and waste it
