

# I Just Wanna

Liberty X

So ya full of every little anecdote  
I wanna hear ya hit a different note  
You're the way I wanna rock your boat  
Just right, just right  
I'm in a place you'er never been before  
So check yourself before you bang on my door  
Be prepared and ready to explore  
We gonna take this higher

I don't mind those accusations  
They're just a one-way conversation  
And I don't need no complications  
Alright alright  
We don't have to go the distance  
So drop your... resistance  
Feels much beter when you got assistance  
And you're gonna be mine

I don't want you to treat me right  
I just wanna uh uh  
And I don't need you to spend the night  
I only wanna uh uh  
Don't assume you're doing me wrong  
If you wanna uh uh  
I just wanna go... all night long

Peel the wrapping see what's underneath  
Licking your lips cause it taste so sweet  
I'll make your day, I'll make your whole damn week  
If you, if you  
Gimme a feeling like I've never known  
No limitations you can make your own  
And when it's over don't look over your shoulder  
Get up and go...

Pick me up on every innuendo  
Play me like the new nintendo  
When you're done, it's around we go  
Back to the start  
There's nothing wrong with being superficial  
Load me up pull the trigger just like a pistol  
And then... there goes the whistle  
It's all over now

I just wanna be with you  
Won't ask you any questions  
Don't care where you take me to  
Just don't make me your possession  
No matterwhat goes down tonight  
We'll go our separate ways by the mornin' light  
But 'til then you gotta do me right  
But I don't need, don't need
